The contract consists of the construction complete of two bridges—one, a 110-foot bridge consisting of one 20-foot and three 30-foot spans supported on steel H-piles; and the other a 70-foot bridge, consisting of two 20-foot and one 30-foot spans, supported on treated-timber piles. Both structures have prestressed-concrete box stringers with a reinforced-concrete overlay.

Plans, specifications, and conditions of tender may be obtained from the Provincial Government Plan Viewing Room, 108, 501 West 12th Avenue, Vancouver 9, B.C. (telephone 879-7531), or from the undersigned for the sum of \$10 (cheque or money order made payable to the Minister of Finance), which is not refundable.

Construction of this contract shall conform to the requirements of the applicable sections of the Department of Highways "General Specifications for Highway Construction." If the bidder does not already have a copy of these specifications, one may be obtained from the Provincial Government Plan Viewing Room, Vancouver, or from the undersigned for the sum of \$10 (cheque or money order made payable to the Minister of Finance), which is not refundable. All copies purchased are registered and amendments are forwarded when issued.

Each tender must be accompanied by a bid bond or a certified cheque in an amount equal to 10 per cent of the tender price. A performance bond and a labour and material payment bond, each in the amount of 50 per cent of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder upon receipt of notice of acceptance of tender. If a bid bond is supplied, this bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so. In the event that the successful bidder supports his tender with a certified cheque, but fails to produce the required performance bond and labour and material payment bond within a period of 14 days from the date of issuance of notice that his tender is accepted, the Minister of Highways shall have the right to forfeit the tender deposit in its

full amount or to the extent of the difference in cost between the bidder's tender and the accepted tender, whichever is the lesser.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

The tender submitted is irrevocable for 60 days and may not be altered, amended, or withdrawn for any cause without the written permission of the Minister.

Tenderers are advised that all bidders will be required to satisfy the Minister of Highways, in writing, that they have the necessary qualifications to successfully perform the work. It is preferred that tenderers submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal which is immediately available for the carrying-out of the work within the time limit specified without in any way curtailing or delaying any Departmental project that may be under contract at this date.

No tender will be accepted or considered which contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

It is preferred that tenderers submit with their tenders a schedule of proposed construction operations showing estimated monthly progress for each phase of the construction work.

APPLICATION FOR PERMIT UNDER
POLLUTION CONTROL ACT, 1967
(Effluent)

THIS APPLICATION is to be filed with the Director, Pollution Control Branch, Parliament Buildings, Victoria, B.C. Any person who qualifies as an objector under section 13 (2) of the *Pollution Control Act, 1967* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or, where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. Those who do not so qualify may file with the Pollution Control Board an objection in writing under section 13 (6), in the same manner and time period as described above.

[Preamble—This application for a permit under the *Pollution Control Act, 1967* covers a liquid which will be disposed of on land leased to CIL Explosives Works at Endako. This effluent will result from routine cleaning of production equipment and trucks. The discharge quantity will be small and intermittent, occurring about 15 hours a week. The discharge will be a dilute water solution containing less than 0.3 per cent by weight of ammonium nitrate and sodium nitrate. Neither of these components are toxic or an explosive hazard. The effluent will be treated by settling and gravel-bed filtration before it is released to be absorbed by the surrounding soil. The point of discharge of the effluent will be about 900 feet from the Endako River.]

Canadian Industries Limited, of 800 Terminal Avenue, Vancouver, B.C., hereby applies to the Director for a permit to discharge effluent from CIL Explosives Works, located at Endako into a ground disposal bed approximately 900 feet from the Endako River, which flows southeast and discharges into the west end of Fraser Lake, and gives notice of its application to all persons affected.

The land upon which the works are located is on land leased from the CNR. It consists of 86 acres comprising the east half and northwest quarter of Lot 3833, Range 5, Coast District.

The discharge shall be located at the disposal bed at the northeast corner of plant-site.

The quantity of effluent to be discharged is as follows: Average annual daily discharge (based on operating period), 1,400 imperial gallons; maximum daily discharge, 4,000 imperial gallons.

The operating period during which the effluent will be discharged is approximately 15 hours a week on a variable and intermittent basis.

The characteristics of the effluent discharged shall be equivalent to or better than the following: Total solids, 2,860 mg/l; pH range, 6.0–6.5; sodium nitrate, 720 mg/l; ammonium nitrate, 2,140 mg/l.

The type of treatment to be applied to the effluent before discharge is as follows: The effluent is collected in either one or two catch boxes, where any suspended solids are removed; effluent is then filtered in a disposal bed and released to the environment.

I, R. J. Peace, Administrator, hereby certify that a copy of this application has been received by the Regional District of Bulkley-Nechako.

This application, dated on the 2nd day of January 1974, was posted on the ground in accordance with the *Pollution Control Regulations*.

(3) Tendering

Sealed tenders for this contract will be received by the Chief Forester up to 4 p.m., Friday, February 8, 1974, except that the Chief Forester may extend such time in his discretion.

Tenders must be submitted in the envelope marked "Tender for Tree Planting."

The deposit will be returned to unsuccessful tenderers.

Failure of the successful tenderer to execute the contract and to submit the required security deposit as specified in

(4) Awarding Contract

The lowest or any tender will not necessarily be accepted, and the Forest Service reserves the right to limit the number of contracts held by any party at any one time.

Prospective bidders are advised that this contract will be awarded only on proof that the successful bidder has arranged

with the Workmen's Compensation Board for the necessary coverage of all employees and (or) partners who will be working on the contract. Current Workmen's Compensation Board assessment rate is 8 per cent of the monthly payroll and there is a minimum coverage period of three months.

The successful bidder, upon notification of the contract award by the Chief Forester, will be required to submit a security deposit to the Chief Forester within five days of notification, and at the same time execute a contract for the planting in the form submitted by the Chief Forester. The security deposit will be in the total amount of 5 per cent of the total bid price. The bid deposit of \$50 will be considered part of the security deposit, and the balance up to the 5 per cent of total bid price must be remitted as noted above by money order or certified cheque payable to the Minister of Finance. In the event the successful bidder fails to remit the security deposit and fails to execute the contract within the time limit specified in the award letter, the Chief Forester may cancel the contract, and the \$50 bid deposit may be forfeited to the Crown.

(5) Planting-stock and Equipment
